

## EQUIGENE® LEATHER CARE

*Products to help protect against the risks of bacterial and fungal growth caused by wax build-up.*

### Equigene® Anti-Bacterial Leather Cleaner:

A blend of deep cleaning agents with tea tree oil and conditioners.

Cleans away old waxes which harbour germs on leather.

Leaves leather ready to polish and condition and all surfaces germ free.

Available in 500ml trigger sprays.

Available in 500ml bottles.

### Equigene® Anti-Bacterial Leather Protector

A cream containing a blend of natural oils and disinfectants to discourage bacterial and fungal growth on leather.

Readily absorbed into clean leather, leaving it soft and supple.

Protects against cracking from water and moisture damage.
