

IODIVET PVP SCRUB

Description:

A bactericidal, sporicidal, fungicidal and virucidal cleanser. Available in 5 litre containers.

7.5% povidine iodine, equivalent to .75 available iodine.

Indications:

For surgeries: As a pre-operative wash for operating personnel and for pre-operative use on patients. For routine ward and medical procedures: Use whenever prophylactic anti-infective action is indicated.

Directions for Use:

Pre-operative Washing by Operating Personnel: Wet hands with water, pour 3.5ml Iodivet PVP Iodine Scrub and spread over both hands, rub Iodivet PVP scrub thoroughly over all areas for 2 mins. A brush should be used at least once, particularly during the first pre-operative wash of the day. Clean thoroughly under finger nails, and develop copious suds. Rinse thoroughly under running water.

Pre-operative use on Patients: After the skin area is shaved, wet it with water, apply Iodivet PVP Iodine Scrub (1ml is sufficient to cover 125-200sq, cms of skin) and rub thoroughly for 2 mins. Develop a lather with sterile gauze saturated with water, the rinsed of area may then be painted with Iodivet PVP Iodine Solution and allowed to dry.

Routine Ward and Medical Procedures: Wet hands with water, apply 3.5ml Iodivet PVP Iodine. Scrub over both hands and rub thoroughly for 20-30 seconds. Develop copious suds with additional water, rinse thoroughly.

Special Precautions:

Keep out of reach of children.
