

Product Information

MEDIHEx-5

Description:

Standard hospital specification hand rub
Medihex-5 contains 0.5% Chlorhexidine gluconate in 70% IPA with 1% glycerol in de-ionised aqueous suspension. Medihex-5 foaming hand rub is a broad spectrum skin cleanser for the washing and disinfection of hands prior to specialized clinical procedures and for use where water and drying facilities are unavailable.

Directions for Use:

Medihex-5 should be applied to wet hands and rubbed thoroughly until dry.

Medihex-5 is available in 500ml dispenser bottles.
