

## VETSEL 5

### Description:

A light yellow aqueous solution containing in each 1ml, 12.1mg sodium selenate equivalent to 5mg elemental selenium per ml.

### Action:

Selenium is an essential trace element which acts at the cellular level in certain enzyme systems. Together with Vitamin E it appears to regulate metabolic oxidation processes in the body.

### Indications:

For the prevention and treatment of selenium responsive ill-thrift and white muscle disease in sheep, horses and cattle.

### Dosage and Administration:

For use in sheep, horses and cattle. For oral administration only.

Important dilution rate; add one part of Vetsel 5 to four parts of water.

Each 500ml container will make up 2500mls (2.5 litres) of diluted drench.

Dosage of diluted drench:

Lambs	1-2ml (1-2mg Elemental Selenium)
Hoggets	3-5ml (3-5mg Elemental Selenium)
Ewes & Rams	5ml (5mg Elemental Selenium)
Calves	10ml (10mg Elemental Selenium)
Horses & Cattle	0-30ml (20-30mg Elemental Selenium)

**Shake immediately before use.**

**Toxicity:** None recorded at recommended dose rate.

LD50 sheep Oral 1.9mg Se/kg.

**Poison Classification:** Poison – Keep out of reach or children.

**Warnings to Handler/Operator:** This material is dangerous if swallowed or absorbed through the skin.

### Precautions:

Store in a safe place. Wash hands thoroughly after handling. Keep away from food stuffs. Keep out of reach of children. Destroy container after use or dispose of safely.

### First Aids/Poisoning

Metal taste, nausea and vomiting. Garlic odour of breath. If swallowed, DO NOT induce vomiting. For advice call a doctor or the National Poisons Centre (0800 POISON or 0800 764 766) immediately.
